CATEGORIES AND CRITERIA

Judging process

The primary basis for awarding firm, team and individual awards is the role that the firm, team or individual had on key deals/cases/matters, judged according to four metrics:

- **Size:** not conclusive but it does indicate what a tax team is capable of handling
- **Innovation:** did a firm's advice show something more than the straightforward answer that is commonly used? Did the matter address tax issues that were novel or untested? What ingenuity did the firm show? Has the work set any precedents?
- **Complexity:** did the matter have complexities that were out of the ordinary? What specialist attributes did a firm draw from to solve them? Were there pressures on the project that added complexity to managing the work, such as timing issues, political/public scrutiny, multiple parties or jurisdictions etc?
- **Impact:** what effect did the matter have on the client's business? Was it transformative? What has the conclusion of the matter enabled the client to achieve? Did the work have a wider impact than just for the client?

All decisions are made by an internal panel consisting of the ITR editors, the ITR awards team and the ITR World Tax research team. All decisions are made independently.
